Marine Micropaleontology 28 (1996) 299–300

MARINE MICROPALEONTOLOGY

Contents Volume 28, 1996

Micro Notes

Recent introduction of the foraminifer *Trochammina hadai* Uchio into San Francisco Bay, California, USA
M. McGann and D. Sloan 1

Research Papers

Survival, ATP pool, and ultrastructural characterization of benthic foraminifera from Drammensfjord (Norway): response to anoxia
J.M. Bernhard and E. Alve 5

Bioeroding foraminifera: a review
M.-T. Vénec-Peyré 19

Latitudinal variation in the planktic foraminifer *Contusotruncana contusa* in the terminal Cretaceous ocean
M. Kucera and B.A. Malmgren 31

Planktic foraminifera from the southwestern Atlantic (30°–60°S): species-specific patterns in the upper 50 m
E. Boltovskoy, D. Boltovskoy, N. Correa and F. Brandini 53

Vertical fluxes of diatoms and silicoflagellates in the eastern equatorial Atlantic, and their contribution to the sedimentary record
U.F. Treppke, C.B. Lange and G. Wefer 73

Book Review

Benthic Foraminiferal Biostratigraphy of the Southern Caribean Region, by H.M. Bolli, J.-P. Beckmann and J.B. Saunders—
E. Robinson 97

Research Papers

The impact of Paleocene/Eocene boundary events on middle neritic benthic foraminiferal assemblages from Egypt
R.P. Speijer, G.J. van der Zwaan and B. Schmitz 99

Benthic foraminiferal response to the emergence of the Isthmus of Panama and coincident paleoceanographic changes
K. McDougall 133

Deep-sea benthic foraminiferal recolonization of the 1991 Mt. Pinatubo ash layer in the South China Sea
S. Hess and W. Kuhnt 171

Substrate pitting and boring patterns of *Hyrrokkin sarcophaga* Cedhagen, 1994 (Foraminifera) in a modern deep-water coral reef mound
A. Freiwald and J. Schönfeld 199

Erratum 209

Research Papers

Modelling planktic foraminiferal assemblage changes and application to sea surface temperature estimation in the western equatorial Pacific Ocean
J. Le and R.C. Thunell 211

Experimental determination of stable isotope variability in *Globigerina bulloides*: implications for paleoceanographic reconstructions
H.J. Spero and D.W. Lea 231
The surface ocean productivity and bottom water oxygen signals in deep water benthic foraminiferal assemblages
P. Loubere 247
A model for improving the precision of paleobathymetric estimates: an example from the northwest Gulf of Mexico
R.S. Spencer 263
Response of Red Sea deep-water agglutinated foraminifera to water-mass changes during the Late Quaternary
A. Almogi-Labin, C. Hemleben, D. Meischner and H. Erlenkeuser 283
